TECHNICAL DATA SHEET

CARPET ODOUR NEUTRALISER – 0510

Specially formulated for effective neutralising of strong odours in carpets and furnishings when used as an additive with 'Hygiene Management System' extraction shampoos. Powerful, long lasting, bactericidal action and high level of perfume. Ideal for all care and institutional applications.

- ❖ Powerful bactericidal action.
- ❖ High level of perfume to re-odorise furnishings after the removal of urine, faeces and vomit.
- ❖ Prevents bacteria build-up in the carpet fibres.

DIRECTIONS:

Carpet Odour Neutraliser can be added straight into the detergent tank in the extraction machine. For every 1 litre of cleaning solution in the detergent tank, add between 10ml and 50ml of Carpet Odour Neutraliser, depending on degree of soiling.

Alternatively, the detergent solution can be pre-mixed in a bucket before pouring in the detergent tank.

Carpet Odour Neutraliser can also be diluted with 10 parts water and then sprayed evenly onto a clean carpet.

For strong urine odours, the product can be diluted down to equal parts with water for pre-spraying. Always extract after use, using CO34 or C156, where the product has been pre-sprayed.

TECHNICAL SPECIFICATION:

Composition: A high active blend of quaternary ammonium salts, cationic cleaning agents, chelating agents and non ionic surfactants.

Appearance: Clear liquid

Colour: Yellow

Cloud Point: > 50

Density: 0.999

pH: 10.5

Fragrance: Strong lemon

Stability: Two years (unopened)

Safety: Keep out of the reach of children.

Safety data sheet available for professional user on request.
