TECHNICAL DATA SHEET

ENVOMATIC RINSE AID - HARD WATER – 0964

A concentrated dishwashing rinse aid which permits a rapid reduction in the surface tension of water

- ❖ Prevents scale and bloom formation

USES:

Designed to be automatically dispensed into the final rinse water by electronic control pumps. Specially formulated to permit a rapid reduction in the surface tension of water. Ensures the drying of cutlery and crockery without the need for drying by hand. Helps prevent scale and bloom.

DIRECTIONS:

Use a dilution rate of 300 to 500 ppm. For optimum results the temperature of the rinse cycle should be in the range of 80 to 90C.

TECHNICAL SPECIFICATION:

Appearance	Yellow liquid
Odour	Low
Density	1.1 kg/m ³
pH conc solution	>11.5 @ 1%
Water solubility	Soluble in water

Safety: Keep out of the reach of children.

Use common sense precautions when handling.

If swallowed seek immediate medical advice immediately, showing this label.

In case of contact with eyes rinse immediately with plenty of cold water and seek medical advice.

After contact with skin, wash immediately with plenty of water.
